Training Course Title: Picking Your Battles in the Midst of the War
Presenter: Shaunna Mozingo, NORESCO
Course No. 47558

Life can often feel like we're stuck in a constant battle, where the challenges around us seem overwhelming and it's hard to feel like we're ever winning or gaining ground. In this course, we'll break down the "war" into manageable "battles" and figure out which ones are worth our energy, and which ones aren't worth the fight. We'll explore how to focus on what truly matters, while letting go of what we can't control. Sometimes, we get caught up in fights or battles that aren't even ours, and it leaves us feeling drained and burned out. But it doesn't have to be that way! Please join us for an insightful and fun approach to mastering the art of navigating life's daily challenges.

This training class offers .6 CEU's towards renewal certification. A CEU certificate will be emailed to the email address on the sign in sheet. Mission Statement: The Colorado Association of Permit Technicians (CAPT) is dedicated to the improvement of building safety in areas relating to education, administration, interpretation, and enforcement of the permitting and code process.
