Training Course Title: Overview of Colorado's New Wildfire Resiliency Code

**Presenter: Colorado Division of Fire Prevention & Control
Course No. 48407**

Overview of Colorado's New Wildfire Resiliency Code

This class is designed to walk you through Colorado's New Wildfire Resiliency Code and provide guidance on its application and enforcement. Attendees will gain an understanding of this new statewide code, and the significant dates and benchmarks established in legislation that any local governing body working in the wildland-urban interface should be aware of.

This training class offers .6 CEU's towards renewal certification. A CEU certificate will be emailed to the email address on the sign in sheet. Mission Statement: The Colorado Association of Permit Technicians (CAPT) is dedicated to the improvement of building safety in areas relating to education, administration, interpretation, and enforcement of the permitting and code process.
